Dear Mr. Barry:

Reference is made to your communication of December 4th and to the enclosed copy of a letter to Robert Schaffer, OASI Assistant from City Solicitor Normand R. Pelletier of Nashua. We find nothing in RSA 101, the State Enabling Act providing OASI coverage for State and local government employees, or any amendments to this chapter, which requires that a local retirement system be modified in order for employees of the local system to be eligible for OASI coverage. We are enclosing herewith two extra copies of this opinion for your use.

Very truly yours,

Encs.
